

WHY CONSULTATION?

1 Differentiated Learning

Students will learn according to their own pace as teachers will customize their teaching strategy to **cater to every student's learning abilities & needs.**

2 Students Take Ownership Of Their Learning

Students are taught to be **responsible** in their learning progress and are heavily encouraged to raise questions to clear misconceptions.

3 Proven Results

The programme's goal is to empower students reach their full potential. Students who have benefited from the programme show positive track record & **improvement of at least three grades.**

4 Cross-Learning Among Peers

Cross-learning with other students will result in engaging discussions & positive social interaction can result in effective learning. Students can **pick up positive learning traits** from each other, as seniors are encouraged to guide juniors.

5 Aligned to School Curriculum

The programme will ensure classes are aligned to every student's school curriculum. Everything taught in class will be **relevant to students' scholarly needs**, such as tests or homeworks. Students **won't be forced to learn additional content** unless they are ready to be challenged.
